

FLAT SET, INSPIRATION MADE DESIGN

*In 1920, the Neo-Plasticism art trend explored the dynamics of movement through color and form. Now, from **Flat by Artis** we remember the iconic black grids of the Dutch painter **Piet Mondrian** in our new partition wall system. **FLAT SET** allows you to combine colors and finishes in both profiles and panels. Inspiration made design.*

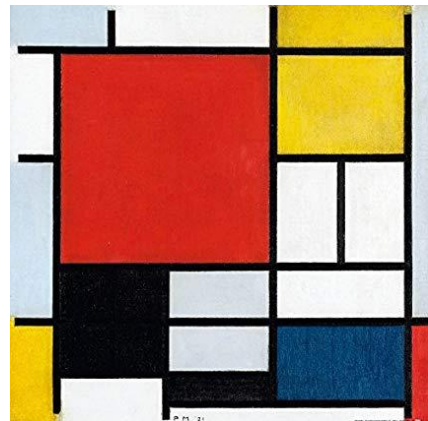

23.10.2018 – One of the most popular symbols of the graphic design in the first half of the 20th century was the black and white paintings with colored squares created by Piet Mondrian (1872-1944). He tried to abstract the world to its maximum simplicity and decoding, and no one doubts that his way of thinking and creating has left its mark on the history of art.

Architecture has also been establishing links with different artistic manifestations, and Mondrian's neo-plasticist painting has undoubtedly become one of the greatest references and inspirations when adapting the classic to modernity.

Thanks to its versatility, talking about our new partition wall system Flat SET, there exist the possibility of mounting the panels with a geometric design similar to the authentic Mondrian style, combining primary colors with an extensive range of RAL color palette.

Come to our stand in ORGATEC (Hall 10.1; C-001) and admire a new work of art of the 21st century. We are waiting for you to explain you all the details of FLAT SET.

*Always remember: **Flat by Artis knows no bounds!***

About FLATbyArtís

FLATbyArtís is the modular partition system that allows customized distributions according to the needs of each project. The FLAT system includes partitions that are single glazed, double glazed, double blind panel, cabinet partition and with hinged and sliding doors; allowing spaces to be formed that express the same visual and technical language; harmony and modern office aesthetic and functional comfort.

About Artís, Arquitectura Interior

Founded in 1964, **ARTÍS, Arquitectura Interior** is a company specialized in design and installation of partitions and furniture for office space, corporate headquarters, business and contract centers.

With a long experience in the sector and ample knowledge of the advantages of modular partitions and the new requisites of the market, Artís developed the **FLATbyArtís** modular partition system in 2009.
